REGULATORS

AQUA LUNG® MIKRON

Aqua Lung has once again raised the bar on regulator design with the Mikron – the smallest and lightest weight regulator in the line. Weighing in at just 26 oz. (din) and 31 oz. (yoke), this regulator is perfect for the travelling diver. Even more amazing is the performance is not sacrificed by the extreme compactness of the regulator. Its balanced first and second stages produce exceptional breathing performance.

- Compact dimensions and low weight blend comfort with a unique diving experience
- A braided hose, weighing less than 5 oz., provides flexibility, comfort and excellent packability
- Available in two colors including a black/pink that matches other ladies' products
- Black/pink version features a smaller Comfo-bite™ mouthpiece designed for smaller mouths, and the silicone bridge which fits across the upper palate can now be detached
- The first stage is a balanced diaphragm type that sports 2 HP ports (7/16) and 4 MP ports (3/8)
- The second stage has an adjustment knob that allows the diver to optimize the opening effort. In the "Mini" position, the opening effort is increased, which is ideal for avoiding free flows at the surface. In the "Maxi" position, the inhalation effort is reduced, reducing the work of breathing
- The reduced size and weight makes the Mikron the ideal choice for travellers and young adults

Ref	Designation	Weight	Retail
SP127900	Mikron Man	0.89 kg	18,590 THB
SP127910	Mikron Man DIN 300 B	0.74 kg	18,590 THB

AQUA LUNG® MIKRON OCTOPUS

Whether you own a Mikron regulator or not, this travel-friendly octopus is the one you want to take on your next dive trip.

- Pneumatically-balanced octopus is ideally suited for over-balanced first stages
- An inhalation effort adjustment knob allows you to desensitize the unit while it is stowed for the dive preventing unwanted freeflow
- High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency

Ref	Designation	Weight	Retail
SP127849	Octopus Mikron with flexible Aquaflex	0.3 kg	8,060 THB

AQUA LUNG TITAN CLASSIC

Incorporating all the best features of its predecessors, this third generation Titan has new innovative features resulting in a more comfortable, lighter-weight and easier-breathing regulator. From the consumer that wants performance at an affordable price to the dive center that wants a rugged and easy to maintain regulator, the Titan delivers.

FIRST STAGE:

- Uses a balanced-diaphragm mechanism resulting in ease-of-breathing and consistent performance while environmentally protecting the internal parts
- The first stage is T-shaped as opposed to its in-line predecessor making it more compact and providing optimal hose routings
- Features 2 HP ports and 4 MP ports
- The unique, forged body of the first stage uses less brass making it more compact and lighter weight
- The outer skin provides impact protection as well as a cosmetic flair
- Now uses a conical filter for better filtration
- Accepts an optional ACD (auto-closure device) system
- Improved yoke screw eliminates trapped water
- Compatible with EAN 40 new, out of the box

SECOND STAGE:

- New, mid-size, high performance demand valve second stage
- Easy-to-grip venturi knob stops unwanted freeflow when the regulator is out of your mouth
- Can easily be reversed from right-handed to left-handed configuration by an authorized Aqua Lung dealer without additional parts
- Comes with Aqua Lung's Comfo-bite™ mouthpiece which reduces jaw fatigue
- A grid built into the exhaust tee creates finer exhaust bubbles for less noise and more stability
- All new, easy purge front cover
- A new, reinforced polycarbonate material makes this second stage stronger than its predecessor
- The side openings on the front cover prevent freeflow when facing into currents or riding a scooter

Ref	Designation	Weight	Retail
SP125300	Titan Classic - Without quick connection device	0.9 kg	15,360 THB
SP128012	Conversion Kit from Yoke to DIN for Titan		2,990 THB

AQUA LUNG CALYPSO/TITAN OCTOPUS

- Mid-size, high performance octopus to compliment the Titan and Calypso regulators
- High visibility 39" yellow hose and high visibility yellow cover makes it easy to locate in an emergency
- The venturi lever prevents unwanted freeflow when not in use
- Can easily be reversed from right-handed to left-handed configuration by an Authorized Aqua Lung dealer without additional parts
- All new, easy purge front cover

Ref	Designation	Weight	Retail
SP128560	Octopus Calypso / Titan QC	0.3 kg	5,570 THB
SP125800	Octopus Calypso / Titan Classic		5,100 THB

AQUA LUNG CALYPSO

Aqua Lung is proud to introduce the fifth generation Calypso regulator! This simple design, with its attractive price, makes this regulator a popular choice for dive lockers as well as new divers. It is compact, lightweight, easy to service and it breathes like a regulator that costs much, much more.

The orange color accents makes it a logical choice for Aqua Lung Partner Centers and coordinates well with the Wave BC.

FIRST STAGE:

- In-line, high-flow piston design means fewer components, excellent reliability and easy maintenance
- Large diameter of piston guarantees a more stable medium pressure output
- The 6 large holes in the end cap results in easier cleaning as well as better thermal exchange, thus improving the freezing resistance
- Features 1 HP port and 4 MP ports
- Compatible with EAN 40 new, out of the box

TOP RENTAL

SECOND STAGE:

- New, mid-size, high performance, demand valve second stage
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- Can easily be reversed from right-handed to left-handed configuration by an Authorized Aqua Lung dealer without additional parts
- Comes with Aqua Lung's Comfo-bite™ mouthpiece which reduces jaw fatigue
- A grid built into the exhaust tee creates finer exhaust bubbles for less noise and more stability
- All new, easy purge front cover
- A new, reinforced polycarbonate material makes this second stage stronger than its predecessor
- The side openings on the front cover prevent freeflow when facing into currents or riding a scooter

AQUA LUNG CALYPSO NITROX AND PARTNER NITROX/O2

The popularity of Nitrox diving is increasing all over the world. Aqua Lung takes full advantage of the expertise and the specialised equipment of its parent company, Air Liquide, in offering a range of equipment specially designed for use with
oxygen-enriched mixtures. The entire range of Nitrox equipment has undergone adiabatic compression tests. Today, Aqualung is one of the very few companies which has successfully submitted its products to adiabatic compression tests in pure oxygen which meet the new standards.

Diving with mixed gas calls for specially adapted equipment and requires specialised training given by an authorised body.

Ref	Designation	Weight	Retail
SP128740	Calypso Oxygen DIN 200B	0.8 kg	12,980 THB

AQUA LUNG CORE / CORE SUPREME

The CORE regulator's amazing breathing, which is rated as "superior" on the ANSTI breathing machine, coupled with its generous features, at an attractive midrange price, provides the best value of any regulator offered today. The CORE comes standard with Aqua Lung's unique, patented, auto-closure device (ACD)which seals water out.

- Auto Closure Device (ACD) - keeps corrosive water out of the first stage inlet by automatically closing as the CORE is removed from the cylinder valve
  - o This prevents internal lubrication from washing away
  - o Safer for elevated percentages of oxygen
- The balanced diaphragm first stage provides superior, consistent performance
- The pneumatically-balanced second stage results in smooth, easy breathing
- Available in yoke (3300 psi / 232 bar max) or din (4350 psi / 300 bar max)
- The T-shape of the first stage optimizes the location of the 4 MP ports and 2 HP ports
- Uses parts that are common to other Aqua Lung models for easier servicing
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- Compatible with EAN 40 new, out of the box
- Equipped with Aqua Lung's patented Comfo-bite™ mouthpiece along with a reusable mouthpiece clamp
- The Supreme cold water version is resistant to freezing when diving in waters colder than 50°F / 10°C
- The Supreme version is equipped with an environmental dry chamber on the first stage and a lip shield on the second stage.

Ref	Designation	Weight	Retail
SP129900	Core ACD, Yoke	1.04 kg	17,590 THB
SP129920	Core Supreme ACD, Yoke	1.1 kg	18,400 THB
SP129930	Core Supreme ACD, DIN	0.87 kg	18,400 THB

AQUA LUNG OCTOPUS CORE

The CORE octopus provides the same great performance as the CORE primary second stage. Thanks to its highly efficient heat exchanger, it is up to the rigors of cold water diving. With its 39" hi-viz yellow hose and front cover, it will be ready to provide life-sustaining air in an out-of-air situation.

- The CORE octopus is pneumatically-balanced. This results in smooth, easy breathing
- The easy-to-grip venturi lever prevents unwanted freeflow at the surface while giving a performance boost at depth
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- Includes 39" yellow hose and yellow front cover

REGULATORS

AQUA LUNG THE LEGEND SERIES INTRODUCTION

The Legend regulators are smart, innovative and feature-rich for the most discriminatory divers. These marvels of engineering have unsurpassed performance when it comes to ease of breathing, smoothness and a natural breath feeling. They look sharp and are built to last. The different models have many features in common including:

FIRST STAGE

- Auto-Closure Device (ACD) keeps corrosive water out of the first stage inlet by automatically closing as the Legend is removed from the cylinder valve
    - o This prevents internal lubrication from washing away
    - o Safer for elevated percentages of oxygen
- Unique over-balanced, diaphragm design results in superior performance at depth
- 2 HP ports and 4 MP ports are angled for optimum hose routing
- An environmental dry system keeps water out of the main spring chamber thus preventing ice buildup and keeping silt and contamination out
- Available in your choice of yoke or DIN connectors
- Compatible with up to 40% O2 right out of the box

SECOND STAGE

- Pneumatically-balanced second stage results in smooth, easy breathing
- The Comfo-bite mouthpiece virtually eliminates jaw-fatigue
- A heat exchanger (patented) which surrounds the valve mechanism, dissipates the cold caused by gas expansion while drawing in the warmth of the ambient water
- The ergonomic exhaust tee channels the exhaust bubbles out of your field of vision. The design also contributes to a reduction in exhalation effort
- Attached to a 29" braided Aqua Flex hose. These hoses are lightweight and extremely pliable which eliminates any tugging on the mouthpiece

SUPREME VERSIONS (FOR WATER COLDER THAN 50°F / 10°C)

In addition to the first stage environmental dry system and the second stage heat exchanger, which are found on all models and provide excellent freezing resistance, the Supreme Versions are:

- Specially adjusted to resist freezing
- Equipped with a lip shield on the second stage to keep lips warm

AQUA LUNG LEGEND LUX

When you dive with a Legend, you're diving with the best. So why not get one that looks the best too? There is no mistaking the rich look of pink gold. This head-turner exudes quality. The tougher-than-nails PVD finish will keep its good looks too as the pink gold is much harder and durable than traditional chrome plating.

THE LEGEND LUX SECOND STAGE FEATURES THE MASTER BREATHING SYSTEM (MBS).

- The MBS is a new, simple and effective way to adjust the breathing performance of your Legend LUX. The MBS controls two functions at one time. It controls the direction of air, which alters the venturi effect, as well as changes the opening effort. One control – two functions, it doesn't get easier.

Ref	Designation	Weight	Retail
SP129640	Legend II LUX ACD	1.3 kg	39,990 THB
SP129700	Legend II LUX ACD Supreme	1.3 kg	42,990 THB
SP129710	Legend II LUX ACD Supreme DIN 300B	1.1 kg	42,990 THB

AQUA LUNG LEGEND LX

If you want the same high performance features and ease of breathing as the Legend LUX but without the pink gold finish, you will find it with the Legend LX. Like the Legend LUX, the Legend LX features the Master Breathing System (MBS).

- The MBS is a new, simple and effective way to adjust the breathing performance of your Legend LUX. The MBS controls two functions at one time. It controls the direction of air, which alters the venturi effect, as well as changes the opening effort. One control – two functions, it doesn't get easier.

TWILIGHT:

- New Twilight stainless steel accent ring
- Smaller Comfo-bite™ mouth piece designed for smaller mouths and a detachable silicone bridge which fits across the upper palate
- All new twilight regulator bag for storage

SP129780	Legend LX ACD Twilight Supreme, DIN 300 B	1.1 kg	30,400 THB

MBS master breathing system

ACD system

AQUA LUNG LEGEND

The Legend shares the same features and performance as the Legend LUX and Legend LX with one notable exception. Instead of the MBS dual control valve, the Legend offers a venturi switch.

- The venturi switch helps prevent freeflow at the surface and when the regulator is out of the diver's mouth
- The opening effort is preset in a fixed position so the diver doesn't have to worry about adjusting the regulator during the dive

Ref	Designation	Weight	Retail
SP129600	Legend ACD	1.3 kg	22,430 THB
SP129660	Legend Supreme ACD	1.3 kg	22,770 THB
SP129670	Legend Supreme ACD, DIN 300 B	1.1 kg	22,770 THB

AQUA LUNG LEGEND OCTOPUS

To compliment the Legend regulator family, Aqua Lung created the Legend octopus.
This highvisibility,yellow version of the Legend second stage is ideal to complete your system.

- High-visibility yellow purge cover and accent pieces
- 39" high-visibility yellow, Aqua Flex hose
- Pneumatically-balanced to be ideally suited for a Legend over-balanced fi rst stage
- The venturi lever prevents unwanted freefl ow when not in use
- Excellent coldwater performance due to highly effi cient heat exchanger surrounding the valve

SP129720	Octopus Legend	0.3 kg	8,060 THB

AQUALUNG DIMENSION i3

A back inflation unit with an integrated i3 system! The Dimension i3 is innovative, stylish, loaded with features, built with high quality materials and extremely comfortable. It is for the recreational diver who wants to be streamlined by placing the air cell behind them.

- By placing the air cell behind them, the diver is more streamlined
- The integrated i3 control system provides a single touch control for both inflation and deflation
- Flat e-valves are very streamlined and effective. One-way design keeps water out
- The multiple dump feature means that when you depress the i3 lever, all of the flat e-valves open at once! No more reaching for the wrong valve
- Custom backpack is thin to keep cylinder close to your center of gravity and efficiently distributes the cylinder weight
- The Wrapture™ Harness System works in conjunction with the shoulder swivel buckles (patented) to prevent ride-up and supports the weight pockets
- The patented SureLock™ II weight system provides a simple, single pull release. Loading is as simple as insert and "click"
- Pull down oral inflator is easy to deploy and stow
- A strong retractor band is used to pull in the sides of the bladder while deflating
- An adjustable chest strap can be raised and lowered on a rail system
- HP and MP hose routings through the back keep your entire kit low profile thus minimizing drag

AQUALUNG LOTUS i3

A back inflation unit with an integrated i3 system! The Lotus i3 is innovative, stylish, loaded with features, built with high quality materials and extremely comfortable. It is for the recreational diver who wants to be streamlined by placing the air cell behind them.

- The Wrapture™ Harness System not only hugs the contours of the female body providing superior comfort and stability, it also supports the scuba cylinder in a way that has never been more comfortable to the diver
- Single touch control for both inflation and deflation. Lift up to inflate, push down to deflate. What could be more simple?
- The integrated i3 control system provides a single touch control for both inflation and deflation
- Flat e-valves are very streamlined and effective. They are also "one-way" which keeps water out
- The multiple dump features means that when you depress the i3 lever, all of the flat e-valves open at once! No more reaching for the wrong valve

AQUA LUNG AXIOM i3

The Axiom i3 is our most comfortable and easy-to-use BC yet. It is a feature-rich, ADV style, wrap-around jacket that incorporates the innovative i3 inflation / deflation system (patented). The integrated Wrapture™ harness system (pat. pend.) allows you to stand up straight in total comfort while the cylinder remains perfectly vertical and pulled in close. Diving has never been this comfortable.
The GripLock™ tank band and buckle system makes its debut on the Axiom i3. This strong, secure system makes attachment to a cylinder easier than ever before. Gone are the days of complicated web weaving and you don't have to worry about pinching your fingers with the innovative finger saver feature (pat. pend.)

- The Wrapture™ harness system, using the shoulder swivel buckles (patented) and a customized mini-back plate, provides comfort and stability while preventing "ride-up" at the surface
- The i3 Control System (patented) provides single touch control for inflation and deflation
- The low profile flat e-valves (pat. pend.) all open simultaneously when the i3 lever is depressed.
- The GripLock™ tank band and buckle system provides security and easy change out of cylinders
- SureLock II weight pouches (patented) provide a simple, single-pull release. Loading is as simple as insert and "click"
- Pull down oral inflator is easy to deploy, use and stow
- A bladder retraction system is used to pull in the sides of the bladder during deflation
- An adjustable chest strap can be raised or lowered on a rail system
- A scooped octo-pocket on the top, front of the right lobe makes it easy to stow and deploy an octopus. The octopus remains visible and accessible throughout the dive
- Ability to run instruments behind the left pocket and out the scooped opening on the top, front of the lobe
- Pocket within a pocket – A small security pocket is found on the flap of a larger drop-down pocket
- Knife attachment points are found on the left lobe
- Features 5 stainless steel D-rings and 2 plastic D-rings for all of your accessories
- Right shoulder pull dump
- Rolled neck collar for comfort

AQUA LUNG SOUL I3

The Soul i3 is a luxury BC added to the women's line of quality dive products. It incorporates Aqua Lung's most comfortable harness system to date, the Wrapture™ harness. The BC is powered by the intuitive i3 control system. It utilizes the GripLock tank band system to keep cylinders secure.

- The advanced air cell design has sleeker, lower profile lobes and a shorter torso length. This hybrid design gives the best of both worlds, ADV jacket style combined with a back inflation unit
- The Wrapture Harness System, utilizing a specialized backplate, valve retention strap and swivel shoulder buckles provides unsurpassed comfort.
- The i3 control system is intuitive – lift up to inflate, push down to deflate
- A multiple dump feature opens upper and lower dump valves simultaneously by depressing the i3 handle
- Flat e-valves can be opened by the i3 control handle or opened manually
- The pull-down oral inflator is easy to deploy and easy to stow. Just push against your lips to open the valve.
- The GripLock tank band is easy to use and provides peace of mind that your cylinder is secure,
- The SureLock II weight system is the easiest to use in the industry. Just insert the weight pocket until it clicks and pull to release.
- Additional standard features:
  - o Scooped octo-pocket
  - o Large utility pocket on the right, zippered security pocket on the left.
  - o Knife attachment grommets
  - o Gauge holder
  - o 7 utility D-rings
  - o Padded rolled neck collar for comfort
  - o Retractor allowance
  - o Dual bladder retraction system
  - o Adjustable chest strap
  - o Right shoulder pull dump
- The Soul i3 comes in 3 color options: Twilight, Pink or Charcoal
- Four sizes are available: XXS, XS/SM, MD, ML

AQUA LUNG PRO HD

The Pro HD is a wrap-around jacket with weight integration that is sure to appeal to a wide range of divers. It provides excellent value because it is so feature-rich for the price. Due to its advanced ResisteK™ material, it will hold up to the rigors of salt and chlorine and retain its good looks. Wherever you want to take it, it's ready to go.

The Pro HD comes in 6 sizes and one color combination: black / charcoal / blue.

- SureLock™ II Mechanical Weight Release System (patented) – provides a safe, single-pull release. Inserting weight is as simple as insert and "click". With SureLock, your weights are secure in the BC. Once engaged, the only way to release the weight is to pull on the handle
- A proprietary backpack has a built in carrying handle and a traction pad to reduce tank slippage
- Technologically advanced ResisteK™ material resists fading and abrasion
- The large, easy-to-access, utility pockets found on either side of the Pro HD have two-way zippers with zipper pulls. There is an attachment loop inside the left pocket
- The waistband is adjustable in the back to accommodate a wide range of waist sizes
- The low profile flat valves reduce drag when moving through the water
- Fixed pockets on the tank band increase weight capacity and help provide proper trim in the water
- A scooped octo-pocket on the top, front of the right lobe makes it easy to stow and deploy an octopus. The octopus remains visible and accessible throughout the dive
- Some divers may find it useful to run their instruments behind the left pocket and out the scooped opening on the top, front of the lobe
- A positioning strap allows you to set the Pro HD at your preferred height each time
- Knife attachment points are found on the left lobe which will accommodate many of the Aqua Lung knives. This location provides easy access to the knife
- Features 5 stainless steel D-rings for all of your accessories
- Large pull bobs are easy to locate and grip with thick gloves
- Right shoulder pull dump is easy to locate and use
- Lower rear dump is useful for horizontal or head down orientation
- The chest strap can be adjusted for personal comfort
- Optional accessories include the Airsource, Squeeze-lock knife, reflector kit and retractor kit.

PRO HD SPECIFICATIONS

BCD

AQUA LUNG® AXIOM

The Axiom is a durable, full-featured BC that boasts amazing comfort and fit. This ADV style, wrap-around jacket gets its noticeable comfort and support from Aqua Lung's proprietary Wrapture™ harness system (pat. pend.). The Wrapture™ allows you to stand up straight in total comfort while the cylinder remains perfectly vertical and pulled in close. This comfort, along with the innovative GripLock™ tank band and the SureLock integrated weight system will make the Axiom the new standard for recreational divers.

- The Wrapture™ harness system, using the shoulder swivel buckles (patented), valve retention strap and a customized back plate, provides comfort and stability while preventing "ride-up" at the surface
- The GripLock™ tank band system makes attachment to a cylinder easier than ever before. Gone are the days of complicated web weaving and you don't have to worry about pinching your fingers with the innovative finger saver feature (pat. pend.)
- Uses a super streamlined air cell design making it one of the most streamlined jacket style BCs in the world
- The low profile flat valves reduce drag when moving through the water
- SureLock II weight pouches (patented) provide a simple, single-pull release. Loading is as simple as insert and "click"
- Fixed pockets on the tank band increase weight capacity and help provide proper trim in the water
- A bladder retraction system is used to pull in the sides of the bladder during deflation
- The chest strap can be adjusted for personal comfort
- A scooped octo-pocket on the top, front of the right lobe makes it easy to stow and deploy an octopus. The octopus remains visible and accessible throughout the dive
- Some divers may find it useful to run their instruments behind the left pocket and out the scooped opening on the top, front of the lobe
- Large, easy-to-access, utility pockets found on either side of the Axiom are secured with zippers
- Knife attachment points are found on the left lobe
- Large pull bobs are easy to find and grip
- Features 5 stainless steel D-rings and 1 plastic D-ring for all of your accessories.
- Right shoulder pull dump is easy to locate and use
- Rolled neck collar for comfort

AQUA LUNG ZUMA

The fun, travel-friendly ZUMA will find favor with those divers who are tired of paying excess baggage fees. This ultra-light, weight-integrated, back inflation BC has everything you need, yet lacks weight and bulk. Once you lift it, you'll feel for yourself that a size ML/LG weighs less than 2 kg (4.4 lbs), with the airway and weight pockets included!

PICTURED HERE WITH OPTIONAL KNIFE

- Extremely lightweight
  - Size ML/LG weighs less than 2 kg (4.4 lbs)
  - Great packability – flat or rolled
- Weight integration features the SureLock™ II (patented) mechanical lock and release system. The weight pockets align themselves, so just insert the pocket until it "clicks". A simple, single pull of the release is all it takes to jettison the weights in an emergency.
- Innovative tank support system eliminates the need for a hard pack
  - Lower tank band aligns with waist band.
  - A valve strap pulls the top of the cylinder in towards the center of gravity transferring the load to the hips and relieving the shoulders.
- Only 4 sizes are all that's needed to cover from XXS to XXL
- Adjustable chest strap
  - The two buckles ride on a rail system allowing the strap to be raised, lowered or removed
- Proprietary flat valves mean less bulk (patent pending)
- Fold-down, easy-access pocket
- Features 6 D-rings to attach accessories
- Includes attachment grommets for knife
- Right shoulder pull dump
- Lower right pull dump
- Sculpted padded shoulders
- Padded spine and lumbar support
- Optional non-ditch weight pockets that mount on the tank band (part number: 427085) can be purchased separately.
- Other options include the Airsource, Squeeze Lock knife and reflector kit.

AQUA LUNG® PEARL

The Pearl is a mid-level buoyancy compensator with superior fit, comfort and style designed for all female divers. With features such as the exclusive sports bra, adjustable waistband and wide adjusting shoulder straps, a fine-tuned custom fit is available for women of all shapes and sizes.

- Hybrid air cell combining the best features of a jacket style and a back inflation unit
- Sleek, low profile lobes with scalloped lower edges to rise above the hips
- The patented, integrated sports bra provides added comfort, security and stability
- The flat valves (patent pending) reduce drag and keep the BC streamlined
- Weight integration features the SureLock™ II (patented) mechanical lock and release system. The weight pockets align themselves, so just insert the pocket until it "clicks". A simple, single pull of the release is all it takes to jettison the weights in an emergency.
- Two large, lobe pockets are secured with zippers
- Four D-rings available for multiple accessory attachments.
- Additional grommets available for attachment of any Aqua Lung (Deep See?) model knife.
- Octo-pockets found on either side securely stow your octopus
- Adjustable waist band accommodates most divers

AQUA LUNG'S PEARL SERIES GOES PINK

Aqua Lung gives back to women by supporting an important cause that has affected our employees and their families, and women around the world. We are pleased to announce that Aqua Lung will be making a cash donation to the American Cancer Society for breast cancer research based upon the success of the Pearl and Pearl i3 (all colors). See www.aqualung.com/pink for more information.

AQUA LUNG BALANCE

Keeping a diver streamlined and comfortable is a snap with the Balance's rear-inflation design and tri-loader harness system.

- The air cell completely surrounds the contour backpack so air can easily transfer from side to side for stability and ease of dumping.
- Features the integrated SureLock™ II mechanical weight release system (patented)
- Low profile flat valves (pat. pend.)
- Stainless steel tri-loader harness system (patented)
- Self-adjusting lumbar support system
- Shoulder swivel buckles (patented)
- A redesigned pull-down pocket
- Two non-releasable rear weight pockets with buckle locks (5lbs/2kgs ea)
- Rolled neck collar for added comfort
- Three stainless steel angled D-rings
- Attachment grommets for a knife
- Over-molded carrying handle
- Updated cosmetics and materials

BALANCE SPECIFICATIONS

TYPE OF BC: Back inflation style
TYPE OF FABRICS: Outside of air cell is 1000D Armorshield™ Cordura®. Also uses Armor X, Integra, V-Diamond rubber and plush suede.
WEIGHT SYSTEM: SureLock ditchable pockets are single channel each capable of holding 10 lbs / 4.5 kg. Two trim pockets can hold up to 5 lbs / 2.25 kg each.

AQUA LUNG® LIBRA

The Libra is a high quality, weight-integrated, rear inflation BC designed specifically for women. By placing the air cell in the back, this BC is perfect for streamlining the female diver.

- The air cell completely surrounds the contour backpack so air can easily transfer from side to side for stability and ease of dumping.
- Features the integrated SureLock™ II mechanical weight release system (patented)
- Low profile flat valves (pat. pend.)
- Stainless steel tri-loader harness system (patented)
- Self-adjusting lumbar support system
- New shoulder swivel buckles (patented)
- A redesigned pull-down pocket
- Two non-releasable rear weight pockets with buckle locks (5lbs/2kgs ea)
- Rolled neck collar for added comfort
- Three stainless steel angled D-rings
- Attachment grommets for a knife
- Over-molded carrying handle
- Updated cosmetics, additional colors, and new materials

WHAT MAKES THE LIBRA DIFFERENT FROM THE BALANCE? IT HAS:

- Contoured shoulders
- A removable chest strap
- Smaller torso length – uses smaller contour pack on all sizes
- 3 sizes, 2 colors

WAVE

TOP RENTAL

When you think of the Wave BC, you think of an entry level model that is rugged and fade resistant. With this latest Wave however, you get so much more. You now get a stylish BC that has the clever ability to add weight integration! Dive it in its standard form using a weight belt and then upgrade to weight pockets, featuring our SureLock™ II weight system, whenever you're ready. It's versatile, it's rugged, it's sharp, it's a Wave.

- Made from tough, fade-resistant 1000D Armorshield™Cordura®
- Accepts an optional SureLock™ II weight system (below)
- Comes in six sizes! XXS – XL
- A scooped octo-pocket on the top front of the right lobe makes it easy to deploy and stow an octopus.
- Ability to run instrument console behind the left lobe and out the scooped instrument opening on the top front of the lobe
- Features two stainless steel flat D-rings
- Two large utility pockets are easily accessible and large enough to hold all of you accessories.
- Right shoulder pull dump with hi-viz orange pull bob
- Right, lower rear dump with hi-viz orange pull bob
- The waistband is adjustable and removable
- Includes chest strap

SIZE XXS ALSO FEATURES:

- A detachable double adjusting crotch strap made with neoprene center for extra comfort
- Optional tank band for 30 cu. ft. cylinder (Part number: 427056)

Because of the popularity of this BC in rental fleets, ***the inflator hose is not included.***

MEASUREMENT INSTRUCTIONS

Waist size in men is normally measured by placing the measuring tape around the waist, cresting the pelvic bone. This measurement is not accurate for BC fitting. The waist size in men should be measured at the height of the belly button just above the pelvic bone (Figure 1). Women's waist size is always measured just above the pelvic bone (Figure 1). This same measurement applies for BC fitting.

Over The Shoulder (OTS) measurement is taken by placing the measuring tape across either the right or left shoulder and reading the distance between the top of the waist line on the back to the top of the waist line in the front (Figure 2). Again, for this measurement in men the waistline is taken to be at the height of the belly button. When fitting the customer in his/her respective waist size and OTS range, inquire what thickness of wetsuit the BC is most likely to be worn with. Calculate about a 2" allowance for the waist measurements for thick, cold water suits.

FIGURE 1: Measuring points for waist size.

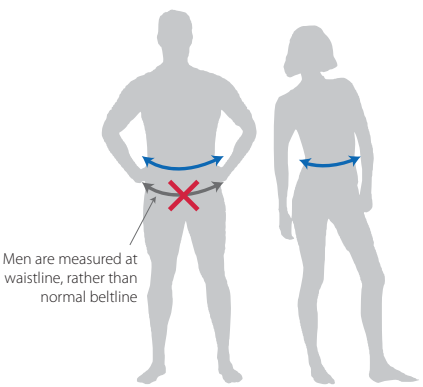

FIGURE 2: Measuring points for OTS length.

DIVE COMPUTERS

OCEANIC® VEO 2.0

Technology has never been easier. Brimming with all the tech and performance features serious divers seek and Oceanic's trademark ease-of-use, the Veo 2.0 could not only be your first PDC, but the last you'll ever need. Powered by Dual Algorithm™.

Advanced features:

- Powered by Oceanic's Exclusive Dual Algorithm™ - lets you choose the decompression algorithm basis that best suits your diving needs without compromising safety.
- 3 Operating Modes: NORM (Air and Nitrox), GAUGE (with run timer) and FREE (tracks calculations to allow switching between NORM and Free)
- 2 Operating Buttons allow "Step Forward" and "Fast Scroll" Interface for streamlined access and setting of personal options
- Air or single Nitrox mix to 50% O2
- Audible Alarm with flashing LED light and User Acknowledgement
- Deep Stop with Countdown Timer – Maybe turned on or off. 2 minute countdown at half your max depth, for dives greater than 80 ft / 25m
- SmartGlo Backlighting senses ambient light, enabling the backlight only in low light conditions, conserving battery life
- Single button access to "Last Dive" display (max depth & bottom time)
- History Mode includes total number of dives, max depth, total dive hours, and lowest temp
- Optional PC Interface with OceanLog Download and Settings Upload
- Firmware Auto-Update: download and install the latest firmware – these may be operational improvements or even new features

Ref	Designation	Retail
OC04370567	VEO 2.0 WRIST, ORANGE	10,895 THB

OCEANIC® VEO 3.0

Good things come in threes. The Veo 3.0 allows forward and backward navigation through settings and options - and packs a variety of advanced features including our exclusive Dual Algorithm™ into a compact, rugged module.

Advanced features:

- Powered by Oceanic's Exclusive Dual Algorithm™ - Your choice between Pelagic DSAT (Spencer/Powell data basis) or Pelagic Z+ (Buhlmann ZHL-16C data basis)
- 3 Operating Modes: NORM (Air and Nitrox), GAUGE (with run timer) and FREE (tracks calculations to allow switching between NORM and Free)
- 3 Operating Buttons with "Step Back" interface – allows forward and backward navigation through menus and settings
- Switch between up to 2 Nitrox mixes to 100% O2 with no restriction (Gas 1 may be up to 100%, and may be less or greater than Gas 2)
- Deep Stop with Countdown Timer – Maybe turned on or off. 2 minute countdown at half your max depth, for dives greater than 80 ft / 25m
- Single button access to "Last Dive" display (max depth & bottom time)
- Audible Alarm with flashing LED light
- SmartGlo Backlighting senses ambient light, enabling the backlight only in low light conditions, conserving battery life
- History Mode includes total number of dives, max depth, total dive hours, and lowest temp
- Optional PC Interface with OceanLog Download and Settings Upload
- Firmware Auto-Update: download and install the latest firmware – these may be operational improvements or even new features

OCEANIC® OCEANLOG VER. 4

Transfer you data from your Dive computer to PC
For use with Oceanic OCS and OC1 Dive Computer

Ref	Designation	Retail
OC049612	OceanLog, USB, DC Ver. 4 (OCS, OC1)	3,200 THB
OC049610	OceanLog, USB, (Atom, Geo)	3,200 THB

OCEANIC® GEO 2.0

Quality, Function and Style. The GEO 2.0 has an upgraded look with a stainless steel accent ring and new color combination – and now includes Dual Algorithm, Deep Stop option and a redesigned user interface with "Step Back" – which allows forward and backward navigation through menus and settings. Additionally, a second Nitrox mix (both programmable to 100%) is available, as well as Firmware Auto-Update which allows the user to download and install operational improvements or even future new features through the PC Interface (with optional cable).

With Dual Algorithm and optional conservative factor settings, the GEO 2.0 may be programmed to provide no-deco and deco profiles similar to virtually every computer on the market

- Powered by Oceanic's Exclusive Dual Algorithm™ - Your choice between Pelagic DSAT (Spencer/Powell data basis) or Pelagic Z+ (Buhlmann ZHL-16C data basis)
- 4 Operating Modes: WATCH (Alternate Time, Chrono, Daily Alarm, Countdown Timer), NORM (Air and Nitrox), GAUGE (with run timer) and FREE (tracks calculations to allow switching between NORM and Free)
- User-Friendly Interface with "Step Back" – allows forward and backward navigation through menus and settings
- Switch between up to 2 Nitrox mixes to 100% O2 with no restriction (Gas 1 may be up to 100%, and may be less or greater than Gas 2)
- Stop times <3 minutes - displays minutes & seconds
- Deep Stop with Countdown Timer – Maybe turned on or off. 2 minute countdown at half your max depth, for dives greater than 80 ft / 25m
- Single button access to "Last Dive" display (max depth & bottom time)
- Data Retention - maintains calculations indefinitely when the battery is changed
- Audible Alarm with flashing LED light
- 24 dive on-unit log book
- History Mode includes total number of dives, max depth, total dive hours, and lowest temp
- Optional PC Interface with OceanLog Download and Settings Upload
- Firmware Auto-Update: download and install the latest firmware – these may be operational improvements or even new features
- Physical Specs: TICKNESS 5/8", HOUSING 2.1/8", FRONT LENS 1.1/2", SCREEN 1.1/4"
- Now available with metric system.

OCEANIC® OCi

The "i" stands for Incredible.
Introducing the OCi. For the diver that wants it all. We mean that literally. The OCi represents the next step forward in recreational wireless air-integrated dive computers from Oceanic. We've combined the technology of our advanced OC1, the styling of our best selling OCS and some new features into one incredibly capable dive computer. Not only is the OCi powered by our ground breaking Dual Algorithm technology but it can handle up to 4 gases, calculate nitrogen during a freedive (in the new tech free mode), enable you to select between salt or fresh water and it even automatically adjusts your altitude. The customizable alarms and digital compass are just icing on the cake. Oh and let's not forget that it functions pretty well as a watch too. Feature for feature the OCi has no competition.

- Powered by Oceanic's Exclusive Dual Algorithm™ - Your choice between Pelagic DSAT (Spencer/Powell data basis) or Pelagic Z+ (Buhlmann ZHL-16C data basis)
- Wireless Air Integrated Technology
- Advanced Digital Compass with North, Reference, Auto Home, and Declination Adjustment (see NOAA's NGDC geomagnetic chart)
- Free and Tech Free dive modes
- Multiple Transmitter Capability & switch between 4 independent transmitters, with up to 4 nitrox mixes to 21-100% O2
- Advanced watch functions including alternate time zone, stopwatch, lap timer, daily alarm, and countdown timer
- Depth to 495 FT (180 M)
- Deep Stop with Countdown Timer
- Gauge Mode with Run-Timer
- User Upgradeable Firmware
- 5+ Color Combinations
- Data Retention
- Firmware Update Ready
- OCi User Manual

MASKS

AQUALUNG LINEA

A beautiful single lens mask made specifically for the woman diver. This mask uses the latest technologies to provide the ultimate in form, fit and function.

- Using Micromask technology, the Linea's lens, skirt and frame are molded together in one shot as opposed to other masks where multiple pieces are snapped together. This allows the lens to come close to the face which maximizes the field of vision.
- Low volume means that the mask is easier to clear and reduces the buoyancy
- Advanced Fit Technology (AFT) uses bands of different textures around the edge of the skirt resulting in a superior seal against the face
- The mask skirt goes further back on the face enhancing the comfort and reducing the marks left behind on the face.
- The clever Comfort Buckle System (CBS) prevents the diver's hair from getting tangled in the buckle

Comfort Buckle System (CBS)

Advanced Fit Technology (AFT)

Ref	Designation	Retail

TS112110	Linea Lady - Black / Black	3,100 THB

AQUALUNG IMPRESSION

Your customers will remember their first Impression! This mask uses the latest technologies to provide the ultimate in form, fit and function.

- Using Micromask technology, the Impression's, lens, skirt and frame are molded together in one shot as opposed to other masks where multiple pieces are snapped together. This allows the lens to come close to the face which maximizes the field of vision.
- Low volume means that the mask is easier to clear and reduces the buoyancy
- Advanced Fit Technology (AFT) uses bands of different textures around the edge of the skirt resulting in a superior seal against the face
- The mask skirt goes further back on the face increasing the contact surface between face and silicone skirt. This enhances the comfort and reduces the marks left behind on the face.

AQUA LUNG® MICROMASK

The Micromask is a revolution in mask design. Its innovative, patented structure makes it possible for the lenses to fit in the ocular orbit. Never before have lenses been so close to the eyes. This not only results in an amazingly wide peripheral view but an extremely low internal volume.

- While scuba divers love it, it is sure to be a favorite amongst the free diving community
- Extra low volume makes it very easy to clear
- Features patented Cardanic Joint Buckles that rotate both up-and-down and in-and-out. This provides maximum adaptability and comfort to any head shape
- The quick counterposed push button activation make the buckle easy to use even while wearing gloves.

Ref	Designation	Retail
TS108580	Micromask Clear / Silver	3,290 THB

Cardanic Buckle

AQUA LUNG® TEKNIKA

- Solid, robust mask with technical divers in mind
- Outer frame made of shock absorbent techno-polymer
- The backing rear support is a one-piece molded frame
- Assembled with stainless steel AISI 304 nuts and bolts
- Cardanic joint buckles (double joint buckles) rotate both up-and-down and in-and-out
- Quick counterposed push button activation is easy to use even when wearing gloves
- Wide headpiece on silicone strap provides stability and comfort
- Due to its particular structure, the mask may be folded to fit into BC pockets

AQUALUNG INFINITY

- The close-to-the-eyes frame design produces a mask with a low profile and an excellent view upwards and downwards.
- Three colors are used on the main frame for a stylish look
- The side lens is made of an optical quality polymer and offers brighter vision and increased side light.
- Cardanic Joint Buckles rotate both up-and-down and in-and-out
- Quick counterposed push button activation is easy to use even when wearing gloves
- Wide headpiece on silicone strap provides stability and comfort

AQUA LUNG LOOK HD

Born in 1988, The Look mask is the best selling mask in the Aqua Lung range. Classic, great fit, easily converted into optical mask... Born to be a winner, what can be better? The Look HD.

- Stainless steel (AISI 316) anti-torsion bar - integrated in the frame structure for maximum dimensional stability and lens
- planarity. It offers a great visibility, without any distorsion.
- Cardanic Joint Buckles and micrometric adjustment for a perfect fit
- AFT - Advanced fit Technology for an optimum comfort and water tight seal
- Photogravure for a nice finishing on frame
- The frame is made of innovative techno-polymers reinforced with inorganic fillers
- improving Shock-resistance and Durability
- Strap - 100% Silicone with enlarged headpiece

MASKS

AQUALUNG LOOK 2 & LOOK 2 MIDI

Classic and elegant, put forward again the Look formula in a modern fashion with added technical features.
The inclined-to-the-cheeks frame design produces a mask with an excellent view upwards and downwards. New colours matching with Technisub/AquaLung range.

CHARACTERISTICS:

- Double lens, 3 mm tempered glass. New twin buttons seeger release system, it make glass locking rings removal quick, safe and easy.
- Pure silicon mask skirt. Look 2 - this skirt has the same shape and dimensions of the actual LOOK mask; and Look 2 Midi - a skirt designed for smaller faces and for free diving, it fits like the Micromask skirt.
- Twin button seeger release system
- Cardanic joint buckles (double joint buckles) rotate both up-and-down and in-and-out
- Quick counterposed push button activation is easy to use even when wearing gloves
- Wide headpiece on silicone strap provides stability and comfort.
- Weight: 185 gr (classic) 180 gr (midi)

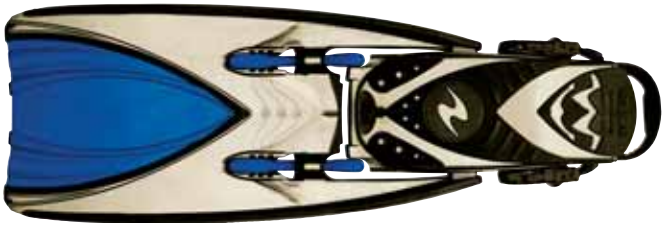
FINS

AQUA LUNG® SLINGSHOT

The Slingshot™ will make diving more comfortable, efficient and fun. Its innovations include Power Bands, Gear Shift and Mid-foot Flex Joint that all add up to provide a wonderful diving experience.



Power Bands :

- Pure silicone Power Bands are loaded with energy on the power stroke. They release their energy prior to the upstroke to provide an added boost of power.
- Instead of wasting your energy, you accumulate it and reclaim it!
- Power bands lessen fatigue and add thrust

Gear Shift

- 3-speed Gear Shift customizes your speed to effort ratio to fit the specific conditions of your dive.
- Three different settings are available.
- Easy to shift during the dive, even with gloves.

Mid-foot Flex Joint

- The blade is attached to the foot pocket using two Mid-foot Flex Joint.
- This takes the strain off of the toes and the top of the ankle. The result is a dramatic improvement in comfort.
- You can now use the entire foot to power the fin rather than just the front half of the foot.
- Provides the blade a significantly larger range of motion, often up to 5 times that of a conventional fin.

AQUA LUNG® STRATOS 3

NEW '15 FOR 2015

- Ergonomic foot pocket
- Grip Effect inside the foot pocket
- 4 channel structure
- Side wings enhanced swim performance and stability
- Anti-slip rubber pads
- TORSION ENERGY POINT: a 3-materials side rib area that helps the blade flexing. The bending point has been moved backward. Benefits: more powerful kick with less efforts

AQUA LUNG X SHOT & SHOT FX

The X Shot and Shot FX fins are high-performance fins that incorporate new technologies and the latest materials. They take the best concepts of the SlingShot and HotShot fins and improve upon them.

- The Power Zone, located in front of the foot pocket, where the power bands used to be, continues to evolve. What were once powerbands, are now integrated "V Boosters", providing even more power with less effort.
- A new spring strap offers a soft TPR heel pad along with Aqua Lung's own proprietary buckles.
- The foot pocket is equipped with the "Power Transmission Zone". This anchors the foot preventing unnecessary stretching of the foot pocket on the power stroke resulting in maximum energy transmission.
- The blade contains a high performance elastomer resulting in high efficiency
- An elastic blade insert creates a "spoon effect" that pushes more water with each down stroke adding to efficiency.
- A customized inner sole provides a grip effect. This prevents wasting power from the boot moving laterally inside.

SHOT FX:

The Shot FX fin contains all the features of the X Shot plus the following:

- The foot pocket's design, compounds and sizing are dedicated to smaller feet resulting in greater comfort
- The Shot FX has a dedicated blade that is shorter and softer than traditional fins. This makes them easier to kick.

FINS

AQUA LUNG HOTSHOT

Now available in White Arctic! Designed with the traveling diver in mind, this amazing fin packs power and comfort in a small package. It offers:

- Unsurpassed comfort
- Compactness for carry-on travel
- Power for a fully-outfitted scuba diver

COMFORT

- The foot pocket is designed to be worn with bare feet!
  - o The top and sides of the foot pocket are soft against bare skin
  - o Neoprene socks or thin-soled boots may be used for thermal protection
  - o Unique, self-adjusting Comfo-strap is buckle free. This particular type of elastomer guarantees comfort
  - o Mid-foot Flex Joint
    - The blade attaches to the sides of the foot pocket rather than at the front of the foot pocket.
    - Prevents hyper-extension of the toes and ankles
    - Maximizes the transfer of power from the leg to the fin

COMPACT AND LIGHT WEIGHT

- Fits in carry-on luggage! Ideal with Departure bag from Deep See.
- Measures only 20.9 in. / 53 cm overall length
- Size regular weighs only 3.28 lbs / 1.5 kg

POWER

- Due to the Mid-Foot Flex Joint, the entire length of blade flexes and provides forward thrust. With a traditional fin, the third of the blade in front of the foot pocket is considered dead space and provides no forward thrust. The result is that the HotShot provides the power of a fin that is 30% longer!
- Geared with silicone slings (Power Bands). These pure silicone slings are loaded with energy during the power stroke, which they release prior to the upstroke.
- Twin-Speed Gear Shift
  - o The silicone Power Bands form the HotShot gear system
  - o The gear shift allows the diver to choose the best speed-to-effort ratio
  - o Divers can change gear settings while wearing the fins
- The blade is made of a semi rigid customized technopolymer. The result is an excellent spring effect and flexibility to maximize thrust.
- The rubberized ribs are made of two different elastomeric compounds to provide the greatest elasticity.

OTHER FEATURES:

- Comes in three sizes: small, regular, large/x-large
- Anti-slip rubber pads on the bottom of fin keep divers safe on boat decks
- Grooves along inside bottom of foot pocket prevent foot from being vacuum-sealed in foot pocket making doffing easy.
- Power bands are protected on the bottom to prevent contact with the ground

AQUA LUNG EXPRESS ADJ.

BEST SELLER

The Express ADJ fin represents the latest in technology and material innovation. Comfort, power and efficiency are the hallmarks of this propulsion machine. Strap a pair on and see for yourself.

The Express fin works on the same principle as the popular Slingshot and Hotshot fins. The function of the Slingshot power bands has been converted into the Express "Armadillo". This patented, elongated membrane is made from ultra-elastic rubber. Like power bands, it accumulates elastic energy during the down stroke and returns it at the end of each kick cycle.

The Armadillo also bridges the gap between the front of the foot pocket and the back of the blade, which eliminates any water transfer through the fin.

- The blade connects halfway back on the foot pocket at the Mid-Foot Flex Joint. This eliminates hyper-extension of the toes and ankles.
- The foot pocket is not only comfortable, but provides different thickness zones which properly secure the foot to the blade for maximum energy transfer.
- Rubber side ribs channel the water down the length of the fin minimizing the spill-over effect.
- Features the ESBS (Ergonomic Strap and Buckle System). The protruding press – to- release buttons can be operated easily even while wearing thick gloves.
- The strap, made of rubber with anti-aging compounds, has three convenient loops. This makes strap easy to tighten or pull up over the heel even with the thickest of gloves
- Over-sized, anti-slip rubber pads on the bottom of the fin

AQUA LUNG EXPRESS

BEST SELLER

"Fullfoot fins have a new revolutionary icon"
Main features:
- Large blade, elastically linked to the shoe-tip (Slingshot effect).
- Elastic rubberized zone in the fullfoot tip, it allows the fin's blade to bend to the optimum angle to obtain a positive thrust from the complete surface of the blade.Once loaded with energy on the power stroke, it will release the energy prior to the upstroke to provide an added boost of power.
- A new way of making diving more comfortable, efficient and fun.

AQUALUNG STRATOS ADJ.

The new Stratos ADJ provides a slightly softer kick than the Express ADJ. It is a durable fin that lends itself well to rental lockers, instructional use and resort settings. This fin offers much technology at an affordable price making it a great value!

• The dual-material foot pocket offers a Power Transmission Zone to prevent stretching. This provides maximum energy transfer from diver to fin
• Dual-material side ribs and blade
• The Bending Zone between the blade and foot pocket allows the blade to quickly reach the optimal inclination for propulsion and water channeling
• Quick release buckles
• Ergonomic strap

AQUA LUNG CORA GLOVES

The Cora gloves are designed with longer and narrower palms and fingers, to anatomically fit the female hand, and a soft poly-suede palm for added protection. The integrated entry pull makes them easy to put on and the high stretch materials allow for comfort and dexterity throughout your entire dive.

- Designed by Women for Women!
- Longer and narrower in the palm & fingers to best fit a woman's hand
- High stretch materials for comfort and dexterity
- Ventilation holes and quick-dry fabrics
- Integrated entry pull eases donning
- Soft polysuede palm for added protection
- Finger tip reinforcement panels for durability
- Adjustable wrist strap keeps gloves securely in place throughout a dive
- 1 Year Limited Warranty
- Packaged on hanging header card

AQUA LUNG NEW BALI 3MM

The Bali 3mm Wetsuit packs a lot of features for a very good price. The men's black/blue colour option gives a bold statement while the women's black/twilight compliments our lady's product assortment. With superstretch neoprene and stylish graphics, you're ready to hit the lower latitudes.

- Superstretch neoprene on shoulders, sleeves and armpits
- Magnetic collar that replaces the usual velcro flap
- Heavy duty #10 zipper
- Flatlock stitch for comfort
- Back zipper water shield
- Pre-bent anatomic legs and arms
- Embossed knee pad in Supratex
- O ring seals to finish the sleeves and legs to limit the water entries.

AQUALUNG ALU TRIO

The Alu Trio, besides being very powerful, has a unique, fl attened, elliptical shape so it fi ts nicely in a BC pocket

- Light source: 3 LED Cree XL-M 700mA @ 260 lumen ea. = 780 lumen / 28,000 lux
- Beam angle is 15° / Focal distance is 5m
- Torch body: anodized alluminium alloy
- Powered by: 8 AA-cells or can be used with four AA-cells
- Switch: self-locking, magnetic sliding switch, one hand operated
- Weight in water: 166g (6oz.)
- Maximum operative depth: 300m (1000 ft)

Ref	Designation	Retail
TS563660	Alu Trio Light	14,840 THB

AQUALUNG ALU SOLO

The Alu Solo is the most powerful light of its class. It is powerful, compact and off ers easy one-hand use.

- Light source: 1 LED Cree XL-M 700mA /260 lumen / 8000 lux
- Beam angle is 20° / Focal distance is 5m
- Torch body: anodized alluminium alloy
- Powered by three C-cells
- Switch: Mechanical, one hand operated
- Weight in water: 316g (11oz.)
- Maximum operative depth: 300m (1000 ft)

Ref	Designation	Retail
TS563800	Alu Solo Light	8,650 THB

UK UNDERWATER KINETICS C4 eLED (L1)

Designed for maximum efficiency, the water cooled dual LED module delivers over 5 watts power and increase the brightness up to 60-70% when submerged. Ideal for rental and travel. Dual power locking switch and integral pistol-style grip.

- A pair of water cooled high intensityLEDs delivers over 5 watts of power.
- Brightness increases up 40% underwater with UK's unique LED watercooling design.
- Full and half-power switch can extend batter life even more
- Power circuit control maintains almost contant brightness with alkaline or rechargeable batteries
- Light from the eLED® is close to sunlight in color and travels farther through water for maximum visibility
- Non-breakable locking switch prevents accidental actuation.
- Integral pistol style grip
- Front lens protected by heavy rubber boot for drop protection
- Tough, non-corroding ABS and polycarbonate plastic construction
- Rubber sleeve lanyard included
- Powered by 4 disposable Alkaline, Nicad or NiMH C/LR14-cells.
- With a 2.8 AHr NiCad Battery Pack and 10-hr Battery/Charger Kit, upgrade your light to a Rechargeable

Ref	Designation	Retail
UK19050	C4 (L1) eLED 5W, 275 Lumens, 8h burn time, Yellow	6,350 THB
UK19052	C4 (L1) eLED 5W, 275 Lumens, 8h burn time, Black	6,350 THB

UK UNDERWATER KINETICS SUPER Q eLED

The Super Q® eLED® Rechargeable flashlight is the gold standard for small lights. When UK originally released it in 1974, it revolutionized handheld lighting forever. Our newest generation has raised the bar even higher. It is incredibly small and bright, with the added feature of a rechargeable lithium ion battery and our latest eLED technology.

- Proprietary compound paths optics permit high efficiency and compact size
- Beam produces a bright spot with almost no peripheral light for improved visibility in murky water
- Powered by rechargeable lithium ion battery or in an emergency 2 optional 123-type lithium batteries
- Universal 90-240 VAC, 50-60 Hz USB power supply and USB powered charging cradle included
- Energy conservation design transfers heat back into batteries for longer burn time and improved cold weather performance
- High impact ABS, LEXAN®, polyurethane rubber, and stainless steel construction for durability
- Proudly made in the USA

Ref	Designation	Retail
UK12202	Super Q eLED, 90 Lumens, 4-5hr, rechargeable - yellow	6,350 THB
UK12226	Super Q eLED, 90 Lumens, 4-5hr, rechargeable - black	6,350 THB

TORCHES

LIGHT CANNON eLED

In the tradition of the original Light Cannon HID light, the Light Cannon eLED delivers an even brighter illumination and maintains this brightness throughout the battery life.

The beam is wide enough for scanning the reef at night or exploration of the interior of a wreck. Using the dovetail handle attachment either pistol or lantern grips can be attached as well as a photo arm.

- A pair of water cooled high intensity LEDs delivers over 10 watts of power
- High color temperature gives the beam the same color as sunlight
- Full and half-power switch can extend battery life even more
- Power circuit control maintains almost contant brightness with alkaline or rechargeable batteries
- Tough, non-corroding ABS and polycarbonate plastic construction
- Powered by disposable alkaline batteries or rechargeable UK NiCad Upgrade kit. Also uses individual nicad or NiMH C-size batteries
- Brightness: 825 lumens (High) 530 lm (Low)
- Burn time: 9h (High) 14h (Low)

Ref	Designation	Retail
UK44651	Canon eLED 10W, 825 Lumens, 9h burn time, Yellow	10,980 THB
UK44652	Canon eLED 10W, 825 Lumens, 9h burn time, Black	10,980 THB

UKPRO POV BLACKPAK

All-In-One. The UKPro POV BlackPak is the ultimate underwater lighting system for your GoPro Hero 2 or 3.

The BlackPak is a UKPro POV40 Hard Case with custom foam inserts designed specifically to house and protect your GoPro Hero 2 or 3. ** GoPro Hero 2 or 3 not included.

The BlackPak also contains one UK Aqualite 90º with a Universal Charger and two Lithium-Ion Batteries, an easy one-handed Flex Grip Video Arm that moves every way your want it, a Lid Pouch for Accessories or a Tablet, and a Neoprene Shoulder Strap With Aircell Technology to easily carry it all.

Take your Point-Of-View (POV) camera underwater video and photography to a new level with the ultimate protection of the UKPro BlackPak that helps you take it all with you.

AQUA STAR LED

- LED type: Cree.
- Lamp life: 50,000 hrs.
- Nominal color tern parature: 6000K~8000K.
- Max. nominal rate output: 500 lumens.
- Burn time: 6-8 hrs.
- Max. rated depth: 120 m/ 400 ft.
- Beam divergence (full angle): 12 degrees.
- Max. Diameter: 40 mm / 1.58 in.
- Battery cell typ: AAA x 6.
- Overall length: 160 mm / 6.3 inch.
- Sandard power consumption: 4.5 V DC.
- Material: Aluminum with anodizing.

Ref	Designation	Retail
AQT2640	Aqua Star LED Torch 500 Lumens, Aluminum	3,410 THB

AQUA LUMEN LED

- State of the art ultra bright L.E.D. (Light Emitting Diode Technology)
- High Intensity White L.E.D. light travels farther underwater for maximum visibility and truer colors
- Shock and Impact resistant L.E.D. bulb - will not break when dropped
- Very tough Aluminum/Polycarbonate casing
- BATTERY LIFE: 50 hours
- BULB: 1 LED
- BATTERY: 3 C-Cell (not included - see below to order)
- BRIGHTNESS: 230 Lumens
- POWER: 5 Watts
- DEPTH: 400 feet
- COLORS: Blue/Black

Ref	Designation	Retail
AQT3200B	Aqua Lumen LED Torch 500 Lumens, 50h burn time, 120m. Alu./PC Black	3,890 THB

SEA&SEA YS-250 PRO STROBES

Amazing power to help you capture any subject you aim at
The YS-250PRO is designed for demanding professionals, packed with revolutionary new features to meet the challenges of digital photography. A large circular arc tube emits a powerful flash at guide number 32 (its value on land, ISO 100/m) when power is set to FULL. It provides incremental manual flash power adjustment in 12 steps for graduations of light. The YS-250PRO is lightning fast: it recycles in 1.8 seconds. Its high-capacity Ni-MH battery, designed exclusively for the strobe, stores enough power when fully charged for 200 full flashes. A high-luminosity white LED target light in the center of the strobe shows precisely where the strobe is pointed, and a ready lamp and a TTL confirmation lamp on each side of the strobe indicate when the strobe is charged and when it has been controlled by the camera's TTL. An audible signal sounds when the lamps light so you can concentrate on your subject in the viewfinder.

- [Guide Number (ISO 100/m) (land)] 32
- [Beam Angle] 105°x 105° (with diffuser 115°x 115°)
- [Batteries] Battery for YS-250PRO
- [Number of Flashes*1] 200
- [Recycle time (full)*2] 1.8
- [Color temperature] 5,600K
- [Color temperature w/diffuser] 5,200K
- [Depth rating] 60m / 200ft
- [Dimensions (WxHxD)] 107x130x223mm / 4.3x5.2x9inch
- [Weight] : 1,383g / 48.4oz (w/o batteries) * Attached a fixing bolt to the Strobe.
- [Underwater weight] : 80g / 2.8oz(w/ batteries)
- [Others]
- Exposure control: TTL, Manual(Light-level control)
- GN 0.7/1/1.4/2/2.8/4/5.6/8/11/16/22/32 (12 steps)
- - Pre-flash control: Equipped with pre-flash cancel mode
- - Slave function
- - Sync cord: 5-pin Sync cord/N17100, Fiber-Optic Cable (L-type)
- - Over-pressure relief valve
- - LED target light
- - Test flash function
- - TTL / READY confirmation audible signal
-
- *1 Number of flashes and recycle time depends on the battery brand, temperature and frequency of use. *2 Number of flashes and recycle time of Ni-MH batteries were tested on 2700mAh batteries.

FREE DIVING

MYSTIC

- The mask is made with just two components - the polycarbonate mask frame and the skirt in liquid silicone, which mechanically hold the lenses, without the use of the usual lens rings.
- This design limits encumbrances and reduces the inner volume of the mask.
- The fact that there are no lens rings also increases the visual field around the external perimeter of the lens.

Ref	Designation	Retail
SPMA0100BB	MYSTIC MASK SPORASUB BLACK / BLACK	2,570 THB

ALIEN

- Specific freediving mask with low internal volume.
- Buckles are positioned directly on the skirt, reducing the total weight of the mask and allowing greater hydrodynamics.
- Optical lenses can be separately purchased.

Ref	Designation	Retail
602NCF	ALIEN MASK OMERSUB - BLACK / BLACK	2,130 THB

SLALOM

Designed to adhere perfectly to the head, to increase hydrodynamics. Slalom geometries are designed to reduce entry of water when on surface even with rough sea conditions. Made with two different compounds, features the terminal part in a softer thermoplastic material.

Ref	Designation	Retail
60651SCF	SLALOM SNORKEL - BLACK / GREY	1,370 THB

ZOOM

Ergonomically designed freediving snorkel. The Zoom Pro model, features a bendable polyurethane tube.

Ref	Designation	Retail
60651SCF	SLALOM SNORKEL - BLACK / GREY	1,370 THB

EAGLERAY

Freediving fins featuring a thermo rubber footpocket with an excellent quality/price ration. Blades are produced in a low modular polypropylene. The angle between footpocket and blade being 21°. It is a powerful fin, but easy to use, for beginners as well as skilled spearfishermen.

Ref	Designation	Retail
P8140	EAGLERAY FIN WITH BLACK BLADE SIZE 40/41	5,360 THB
P8142	EAGLERAY FIN WITH BLACK BLADE SIZE 42/43	5,360 THB
P8144	EAGLERAY FIN WITH BLACK BLADE SIZE 44/45	5,360 THB
P8146	EAGLERAY FIN WITH BLACK BLADE SIZE 46/47	5,360 THB

FREE DIVING

STINGRAY AND STINGRAY CARBON

- These fixed blade fins are characterized by their thermo rubber foot-pocket and for the angle between foot-pocket and blade being 22 degrees (compared to traditional 15/17 degree).
- The use of thermo rubber of two different stiffness compounds increases comfort over normal foot-pockets.
- The 22 degree angle is the result of trying to optimize the power of the push through the water relative to effort.
- The blades are produced in a low modular polypropylene in two degrees of stiffness: Winter (grey) softer and Black (medium hardness).

Ref	Designation	Retail
P7139	STINGRAY FIN WITH BLACK BLADE SIZE 39/40	7,360 THB
P7141	STINGRAY FIN WITH BLACK BLADE SIZE 41/42	7,360 THB
P7142	STINGRAY FIN WITH BLACK BLADE SIZE 43/44	7,360 THB
P7144	STINGRAY FIN WITH BLACK BLADE SIZE 45/46	7,360 THB
P7146	STINGRAY FIN WITH BLACK BLADE SIZE 47/48	7,360 THB

Thanks to the carbon technology, offering a great increase in performance of the blade combined with a very comfortable thermo-rubber footpocket. The interchangeable blades are available in three degrees of stiffness: 20 soft, 25 medium and 30 hard.

Ref	Designation	Retail
P2539	STINGRAY CARBON FIN 25 - SIZE 39/40	23,470 THB
P2541	STINGRAY CARBON FIN 25 - SIZE 41/42	23,470 THB

K4646	EAGLERAY KIT - ALIEN+ZOOM+EAGLERAY FIN 46/47	8,300 THB

SP1 COMPUTER

- SP1 is a wrist computer specifically conceived for freediving and spearfishing.
- It features all functions of modern digital watches (time, date, chronograph, countdown timer, daily alarm, dual time) and a dive mode. The Dive mode activates automatically with the water contact and resumes automatically after around 30 seconds from the water exit.
- During the dive, the display will show in real time: Instant depth, dive time, water temperature. Once on the surface, the SP1 indicates automatically the surface time.
- SP1 records up to 200 dives. The data stored for each single dive is: sequence number of the dive, date and time, water temperature, duration of the dive and maximum depth.
- We highly recommend to complete the battery replacement by a certificated Sporasub dealer to ensure its waterproofness and warranty.

Ref	Designation	Retail
SPPC010001	SP1 FREEDIVING WRIST COMPUTER	15,620 THB

SP2 COMPUTER

- SP2 it's a perfect combination of functionality and style, both for freediving and "dry" training.
- Its main features are:
  - DIVE
  - CHRONO
  - TIMER
  - HISTORY
  - SETUP
- The Cardio Chest Strap (optional) can be used both in Dive and Chrono mode. It features 5,3 KHz allowing underwater data transmission.
- The Dive Master software (download) allows dive data downloading of: dive time, maximum depth, water temperature, total calories, max/min heart rate (only using Cardio Chest Strap).
- Software and SP2 Firmware (download) are very easy to use and their updating is available at Dive Master when released.

RASH GUARDS

AQUA LUNG SPORT RASH GUARD XCOLOURED BLACK

NEW '15 FOR 2015

Aqua Lung Athletic Fit Rashguards are designed to be worn in and out of the water for protection against the sun's UV rays, as a layer to guard against possible critters that will sting or scratch you or as an additional layer under your Aqua Lung wetsuit!

- 80% polyamide - 20% Spandex
- Treated UPF 50
- These undersuits retain 98% of UV
- Short or long sleeves
- Limit heat loss while allowing ease of movement
- Can be worn under a dry or wet suit or on its own for water sport

KODAK SPORT CAMERA

Divers and snorkelers, capture the vibrancy of life 50 feet underwater! Take beach life snapshots or ski adventure memories. This durable camera survives where others don't.

Waterproof up to 50 feet.
Divers and snorkelers, capture the vibrancy of life 50 feet underwater!

Rugged, durable, shock-proof rubber shell.
Great for bumpy rides and rocky trails. Roller Coaster anyone?

Sunscreen and scratch resistant lens.
No blurry pictures from sunscreen smudges. Avoid scratches from sand and snow that can ruin pictures.

Clearest, sharpest pictures!
Loaded with Kodak Ultra Max 800 speed, 27 exposure film for clearer, sharper pictures than any underwater camera.

For outdoor and daylight use only.

ANALOX 02

Designed to be a major step forward in diver safety, the O2EII portable nitrox checker is the next generation of oxygen analysers.
Features Include:

- Wrist Lanyard
- Freeze Display
- Comfort Grip
- Extended Warranties

Ref	Designation	Retail
AN1000	Analox 02EII® portable oxygen checker	19,040 THB
AN1001	Analox 02EII® sensor	9,000 THB

ANALOX ATA

The best trimix analyser, just got even better. Analox has listened to customer feedback to make the new ATA pro smaller and lighter leaving more room for the rest of your dive gear.

- Backlight
- Helium sensor zero function
- Auto switch off Oxygen compensation
- Comfort Grip
- Extended Warranties

Ref	Designation	Retail
AN1003	Analox ATA (Trimix) Battery powered.	58,490 THB

VALVES

Ref	Designation	Retail
FHV01	Thermo valve Int.	1,890 THB
FHV02	XS Scuba valve Int.	1,920 THB
FHV01D	Thermo pro valve with insert - EAN Ready	1,990 THB
FHV02D	XS Scuba valve with insert - EAN Ready	2,060 THB
FHV05	Twin Isolation valve with insert - EAN ready	10,240 THB

TANKS AIR

Ref	Designation	Retail
FHC100	CATALINA aluminum Cylinder 13.2L	13,000 THB
FH80	CATALINA aluminum Cylinder 11.1L (Volume price)	8,470 THB
FH63	CATALINA aluminum Cylinder 9L	8,470 THB
FH53	CATALINA aluminum Cylinder 7.6L	8,470 THB
FH40	CATALINA aluminum Cylinder 5.8L	8,320 THB
FH30	CATALINA aluminum Cylinder 4.4L	6,970 THB
FH19	CATALINA aluminum Cylinder 2.7L	5,770 THB
FH13	CATALINA aluminum Cylinder 1.9L	4,800 THB
FH06	CATALINA aluminum Cylinder 0.9L	3,760 THB

ACCESSORIES

TANKS ACCESSORIES

Ref	Designation	Retail
SP213427	Aqua Lung tank sticker	180 THB
SPNST	Nitrox tank sticker	160 THB
TDS07	Nitrox tank tape	1,260 THB

Evolve

Pre 1943 | 1943 First To Dive | 2012 Axiom i3 with Wrapture™ System

Axiom i3 & Axiom

Introducing our most comfortable and easy to use Buoyancy Compensator yet, the Axiom i3. The **Wrapture™** harness system distributes the weight off your shoulders and around your center of gravity, providing total comfort and stability. The unique cylinder **valve retention strap**, coupled with the new **GripLock™** tank band and buckle system, provides a totally secure and hassle free experience. All this, and the state-of-the-art **i3 inflator** make the Axiom i3 the top of the BC food chain. Also available in a traditional non-i3 version.

Evolve – Experience Axiom i3
